## The Children's Audio Theatre

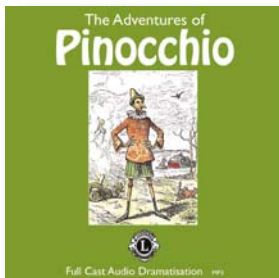

Just over a year ago, it was brought to the Club's attention that there was little entertainment available for visually handicapped children. The world of children's television was closed to them and there are no children's programs on radio. To remedy this situation the Club decided to sponsor the formation of the Children's Audio Theatre – a company of actors, technicians and a small administrative team. A year's productions was planned. This, our first catalogue, is the result.

To our delight not only have our productions been well-received by the initial target audience but primary school teachers concerned to develop listening skills in sighted children, and parents anxious to provide their children with an alternative to television, have found our productions to be of great value. Equally to the point, children love them. To make the productions of even more value to teachers, purchasers of the CDs can download from our web page, without further payment, the scripts of each play and suggested activities. All recordings can be purchased from us on CD for \$14.95 each plus postage.

The Kiama Lions Club Inc., is a not for profit service club. All profits from sales of the titles will be donated to various children's charities. Our contact details are on the back cover of this booklet.

Full downloadable scripts and suggested activities are available for all levels.

**Level 2** – Introducing Doctor Dolittle – Four episodes.
